

Love. Hate. Movies. Feed the Voices in your Head: Volume I is a compilation of writings touching on everything from the cultural significance of movies to... well, that's pretty much it. As funny as it is insightful (oh boy...), this anthology of (sometimes disturbingly) honest stories examines unifying cultural threads relating to identity, aging, legacy, parenthood, and neuroses of all varieties through the lens of pop culture. This slice-of-life dissection of one man's life traces his development from a young boy raised on movies and video games to a man-boy hybrid still mentally subsisting mainly on movies and video games as a way to explain his experiences in a strange and chaotic Universe. Experience life from the point of view of a white, upper-lower-middle class, heterosexual man, which is exactly the sort of unique voice that the literary world needed to really shake things up.
