

Sinbad & Papillon Escapades is based on a true story of two young sea lion cousins that grow up under very different circumstances and neighborhoods and later become friends. Their lives trials, tribulations and adventures are reflective of a young human child's maturing experience. The story of their exploits is for middle graders and young adults ages eight to fourteen years in a four book series told from the sea lion perspective. The young reader will share Sinbad and Papillon's life lessons both funny and sad.
